

# USH 151 (BEAVER DAM BYPASS) DODGE COUNTY

## Client

WisDOT, SW Region  
Jim Buschkopf  
2101 Wright Street  
Madison, WI 53704-2583  
(608) 246-3851

MSA Professional Services  
Quirin Klink, P.E.  
1230 South Boulevard  
Baraboo, WI 53913  
(608) 356-2771

## Project ID's

1111-09-01

## Design Start

October 2006

## Design Completion

Anticipated November 2008

## Construction Start

Anticipated Spring 2012

## Construction Completion

Anticipated Fall/Winter 2012

## Estimated Construction Cost

\$14,000,000.00

## Project Manager

Amanda Zacharias, P.E.

For this project, DAAR has been operating as a sub-consultant to MSA for roadway design assistance. The project is a 4.66-mile pavement replacement with a reconfigured interchange design at CTH DE. Additionally, 8 bridges were raised to provide adequate clearance over the Union Pacific Railroad and other roadways within the project limits. Horizontal and vertical alignments were improved to meet current FDM standards. Extensive coordination with the Union Pacific Railroad Company was important for the success of this project.

### Project Deliverables:

- Design Support Services for the design of USH 151 Bypass
- 30%, 60%, and 90% Plans
- PS&E Documents
- Environmental Document
- Crash Rate Analysis for Design Study Report
- Structure Survey Reports for RR Structures
- Drainage Analysis
- Utility and Railroad Coordination
- Public Involvement Coordination
