

Transportation Design Engineer - Entry Level

DAAR Engineering, Inc. is a firm comprised of experienced engineers and professionals, specializing in public and private sector transportation infrastructure improvement projects. We are currently seeking a full-time, Entry Level Design Engineer to work in our Milwaukee Transportation Design office.

Position:

Full Time position available with excellent benefits, including medical, dental, vision, 401k, HSA, disability, and voluntary group benefits options.

Qualifications:

- Bachelor's degree in Civil Engineering required
- College level course work focused in transportation design engineering
- Ability to communicate clearly and effectively in written, graphical, and verbal forms
- College course work with AutoCAD, Civil 3D, and Microsoft Office
- Former internship with WisDOT or Engineering firms preferred but not required

Responsibilities:

- Assist in the development of plans, specifications and estimates for highway improvement projects
- Perform hands-on roadway geometric design including:
 - Analysis of survey data, maps, aerial photography, topographic and geologic data
 - Horizontal and vertical geometric design
 - Super-elevation and vertical clearance calculations
 - Cross section development
 - Grading, signing and marking, and right of way plans
 - Quantity calculations and construction cost estimates
- Contribute as a member of one or more project delivery teams
- Ensure quality of work by following established quality plans and guidelines

Job Type: Full-time

Pay: \$55,000.00 - \$62,000.00 per year

This firm is an Equal Employment Opportunity/Affirmative Action (EEO/AA) employer committed to maintaining a nondiscriminatory, diverse work environment. Qualified females, members of ethnic and racial minority groups, persons with disabilities and veterans are strongly encouraged to apply.

Relocation assistance not offered.

Visa sponsorship not offered.
